

## CPSC 5330 -- Spring 2024

### Lab 8: Spark Streaming

For details, hints, and additional instructions, please refer to the template notebook supplied in the course repository.

---

#### To Hand In

A Zip file containing (only) these files

- The file `lab8_spark_streaming.ipynb` containing your solution. Please leave the output in the code cells, and note that you will copy some output into markdown cells at the end of the notebook.
- A retrospective report in a file `retrospective.pdf` – a reflection on the assignment, with the following components
  - Your name
  - How much time you spent on the assignment
  - If parts of the assignments are not fully working, which parts and what the problem(s) are
  - Were there aspects of the assignment that were particularly challenging? Particularly confusing?
  - What were the main learning take-aways from this lab – that is, did it introduce particular concepts or techniques that might help you as an analyst or engineer in the future?
